M271 engine - timing chain stretch. Generally, when a timing chain is used, the intention is for it to last the "lifetime" of the engine (very roughly 200k miles). Leaving it for this long in the M271 engine is very risky, in my opinion. There have been cases of premature chain stretch in these engines. As the chain stretches, at some point it will reach the limit of what the chain tensioner can compensate for.
