OpenLibrary is a not for profit and an open source website that allows to get access to obsolete books from the internet archive and even get information on nearly any book that has been written. It is sort of a Wikipedia that will at least provide you with references related to the book you are looking for like, where you can get the book online or offline, even if it doesn't store itself. Therefore, if you know a book that's not listed you can simply add the information on the site.

### **A Universal History Of The**

A universal history is a work aiming at the presentation of a history of all of mankind as a whole, coherent unit. A universal chronicle or world chronicle typically traces history from the beginning of written information about the past up to the present. Therefore, any work classed as such purportedly attempts to embrace the events of all times and nations in so far as scientific treatment of them is possible. Universal history in the Western tradition is commonly divided into three parts, viz

### **Universal history - Wikipedia**

The Universal History (complete title: An Universal history, from the earliest account of time. Compiled from original authors; and illustrated with maps, cuts, notes, &c. With a general index to the whole.) was a 65-volume universal history of the world published in London between 1747 and 1768. Contributors included George Sale, George Psalmanazar, Archibald Bower, George Shelvocke, John Campbell and John Swinton .
