Adding and Subtracting Polynomials Date Period

When adding polynomials, we just add like terms. The first thing to do is to identify the terms and then you just add them together. When you have more than two like terms it is helpful to create columns to work off of. When you are subtracting polynomials start by reversing the sign of each term and then add them as usual.

Adding & subtracting polynomials: two variables. Video transcript. We're asked to simplify this huge, long expression here. x to the third plus $3x$ minus 6-- that's in parentheses-- plus negative $2x$ squared plus x minus 2. And then minus the quantity $3x$ minus 4. So a good place to start, we'll just rewrite this and see if we can eliminate the ...
