CCNP Enterprise Certification and Training. Achieving CCNP Enterprise certification proves your skills with enterprise networking solutions. To earn CCNP Enterprise certification, you pass two exams: one that covers core enterprise technologies and one concentration exam of your choice, so you can customize your certification to your technical area of focus.

CCNP Enterprise - Cisco
Process Switching Process switching is the slowest and most processor-intensive of the routing types. When a packet arrives on an interface to be forwarded, it is copied to the router's process buffer, and the router performs a lookup on the Layer 3 address. Using the route table, an exit interface is associated with the destination address.
