Metrology

Measurement encompasses different fields such as communications, energy, medical sciences, food sciences, environment, trade, transportation, and military applications. Metrology concerns itself with the study of measurements. Measurement is an act of assigning an accurate and precise value to a physical variable. The physical variable then gets transformed into a measured

PDF Engineering

Metrology

Metrology is the science of measurement.

Metrology may be divided depending upon the quantity to be measured like metrology of length, metrology of time. But for engineering purposes, it is restricted to measurement of length and angles and other qualities
