Names of large numbers - Wikipedia

Read Online Place Value Chart One Million

We write numbers with commas separating sets of three zeros so that it's easier to read and understand the value. For example, you write one million as 1,000,000 rather than 1000000. As another example, it's much easier to remember that a trillion is written with four sets of three zeros than it is to count out 12 separate zeroes.
