There is no question that planning and installing an irrigation system is a big job, but it is not a difficult one. To make it easier, we have divided the process into just three steps that walk you through the job from beginning to end. They are: Gather Required Information, Map Out Your System and Install It.

Sprinkler Planning & Installation Guide - Toro

Start by selecting your parts in the same manner you will install them. Start by selecting your posts, then your top and bottom rails, followed by your choice of pickets or tempered glass. Once the core components of your aluminum railing system are selected, you can now determine the right amount of fasteners and accessories you will require to complete your project.
